 \* Please see LAMP DEIR (SCH# 2015021014), Section 4.12.2 - Off-Airport Transportation
- B. Air: All projects that are required to obtain AQMD permits (see AQMD Rules and Regulations) are required to submit written clearance from the AQMD indicating no significant impact will be created by the proposed project.\*

## VIII. Mitigating Measures:

Feasible alternatives or mitigation measures which would substantially lessen any significant adverse impact which the development may have on the environment. \* Please see LAMP DEIR (SCH# 2015021014), Section 4.0 - Impact Analysis.

Each of the 13 main environmental disciplines addressed in this chapter is discussed in a separate section using a common organization. Sections are numbered 4.1 through 4.13.

Several sections are divided into subsections to simply and clarify the discussion. Within each environmental topic section, discussion of the following is provided: introduction, methodology, existing conditions, threshold of significance, impacts analysis, cumulative impacts, mitigation measures, level of significance after mitigation and other measures including LAWA standard control measures or other measures such as enhanced sustainability measures, proposed by LAWA to reduce impacts. This heading/subsection is only included in cases where there is a standard control measure or other measure applicable to the environmental topic and the impact would be less than significant.
