Re: Public Records Act Request

Dear Mr. Haig:

This letter responds on behalf of our client, the City of El Segundo, to Los Angeles World Airport's ("LAWA") March 24, 2017 response to El Segundo's November 27, 2016 request under the California Public Records Act ("CPRA"). In that request, El Segundo asked for records relating to the reference to the potential addition of 3-5 passenger gates in the Notice of Preparation of an environmental impact report for the LAX Terminals 2 and 3 Modernization Project.

On January 4, 2017, LAWA responded with a small number of documents, which were substantially redacted and interspersed with blank pages. See Attachment 1. These documents were almost uniformly unresponsive to El Segundo's request, an unusual result given that the subject of the request was a public statement regarding a project which was already planned and undergoing environmental review.

On March 1, 2017, as part of its comments on the Final Environmental Impact Report ("FEIR") for the LAX Landside Access Modernization Program ("LAMP"), El Segundo made a follow-up request for "all background documents supporting or explaining the data" in one of the documents provided, and asked LAWA to include all responsive documents in the administrative record for the LAMP. (Excerpted request, including LAWA document referenced, attached as Attachment 2.)

Brian D. Haig
Los Angeles World Airports
April 5, 2017
Page 2

On March 10, 2017, LAWA responded that the documents “minus any privileged documents” would be ready for review in 14 days. See Attachment 3. LAWA cited authority to extend the normal 10-day deadline for response “under specified circumstances, including the need to review a large number of documents and to retrieve documents that are in a separate location from the office processing the request.”

Despite its express reliance on authority indicating a “large number of documents” potentially responsive to the request, on March 24, 2017 LAWA provided a single document, which was identical to the document which was the basis for El Segundo’s March 1, 2017 request. LAWA also stated that “[t]here are additional documents being reviewed and we will release any responsive, non-privileged documents as soon as possible.”

Pursuant to its March 1, 2017 request, El Segundo hereby demands that these documents be released immediately, and made part of the administrative record for the LAMP project and the Terminals 2 and 3 Modernization Project.

For the purposes of this request, the term “documents” includes, but is not limited to, any written material (including material on the internet), facsimile, e-mail, photograph, map, data, report, videotape, audiotape, note of telephone call or meeting, factual or legal analysis, and any and all correspondence and memoranda in any written form, or other information that would be an agency record subject to the requirements of the PRA when maintained by an agency in any format, including an electronic format. All references in this PRA request to LAWA include, but are not limited to, LAWA’s consultants, employees, officers, and attorneys and any other person or entity contracted to do business on their behalf.

If you determine that any of the requested records are exempt from disclosure, we ask that you reconsider that determination in view of Proposition 59, which amended the state Constitution to require that all exemptions to the CPRA be “narrowly construed.” We remind you that Government Code section 6257 requires release of all reasonably segregable portions of the requested records which are not themselves exempt from mandatory disclosure. If you determine that the requested records are subject to a still-valid exemption, we would further request that: (1) you exercise your discretion to disclose some or all of the records notwithstanding the exemption; and (2) with respect to records containing both exempt and non-exempt content, you redact the exempt content and disclose the remaining content.

Brian D. Haig
Los Angeles World Airports
April 5, 2017
Page 3

Under Government Code section 6255(a), LAWA must justify withholding any record responsive to this request by demonstrating that the record in question is exempt under an express provision or provisions of the CPRA. Because much of what is shown on the document in question indicates that airlines provided information in correspondence with LAWA (for instance, “Delta asserts they can gate 27 NB aircraft on 2 and 3 (T/W D?);” “AA plan has 15;” “AA thinks T5 can be 15 even with two A330 gates for Hawaiian”), LAWA may not claim that all records related to this document (including the correspondence with the airlines) are deliberative in nature.

Please immediately provide all records described or related to the above, or justify in writing why LAWA is withholding such records. Gov. Code § 6255(a). In light of the inadequate response to date, please also conduct a further search for all other LAWA records responsive to the El Segundo’s November 27, 2016 request that were not contained in LAWA’s January 4, 2017 response, including but not limited to all documented feedback from the airport sponsors regarding configuration or addition of gates anywhere at LAX.

If I can provide any other clarification that will help expedite your attention to this request, please contact me at (415) 552-7272 or petta@smwlaw.com. See Gov’t Code § 6253.1 (requiring public agency to contact and provide assistance to members of the public making a request that may be denied).

Very truly yours,

SHUTE, MIHALY & WEINBERGER LLP

A handwritten signature in blue ink, appearing to read 'J. Petta', with a long horizontal flourish extending to the right.

Joseph “Seph” Petta

Subject: November 27, 2016 Public Records Request

Please find attached documents responsive to your request.

Please note we are not releasing deliberative documents. The documents being requested are exempt from release pursuant to provisions of the California Government Code Section 6255. To the extent that your request includes documents that are exempt under these provisions, we are not releasing any documents.

In addition there are documents covered under attorney client communication. Pursuant to provisions of California Government Code 6254 (k), these documents will not be released. Portions of the attached have been redacted under this section.

In addition, drafts are not being released pursuant to provisions of California Government Code 6254 (a).

There are additional documents being reviewed and will release those as soon as our review is complete.

Thank you for your patience.

Flag for follow up
Flagged

Hi Dorothy/Julie,

I only had 6 comments and a few minor edits to the 1st draft of the project description that appears to all have been addressed except #5:

1. Revise regional location map deleting project site graphic since there is a figure 2 is the project location map. Use larger font for project site label.
2. List in references, double check throughout that all references are listed [REDACTED]
3. The description described location in relation to the streets that aren't shown on the figure. Please use a graphic similar to MSC Program Location, Figure 1 without the smaller map in the top right corner since there is a separate graphic for regional location: http://www.lawa.org/MSNorth/pdf/LAX%20MSC%20Initial%20Study_020613_Final_public.pdf
4. Label Taxilane D, service road & World Way on the figure since it is referenced.
5. Rather than showing a construction phasing figure since there is difficulty in distinguishing the colors and clearly reading the graphic, there should be simplified graphics for showing an existing site plan and a proposed site plan for the overall project for side by side comparison. If necessary, a revised construction phasing plan can be shown in the Draft EIR.
6. BOAC still certifies all LAWA EIRs with City Council concurrence.

A just have a couple of other comments on the 2nd PD draft:

Similar to the Terminal 7 Improvements Project for United, I would prefer to show the existing and proposed site/floor plans instead of the construction phasing graphic (http://www.lawa.org/uploadedFiles/OurLAX/pdf/UA%20T7_Initial%20Study%20for%20public%20review_March%202013.pdf). I don't believe it is necessary to go into the specifics of construction phasing at this point since the design is still in the early conceptual stages and subject to change. The same would apply to specific building heights. I believe estimates would suffice unless you are using the information specifically for discussion on the level of impacts for environmental factors and determining significance and whether it is exceeding a particular threshold. Perhaps we should put this on the agenda as discussion points for Monday's meeting prior to making any revisions to see if there is feedback that indicates otherwise.

Other minor comment is for last section on "Necessary Approvals." I think it's an easier read to simply list the agency. If you still think it is appropriate to provide specifics, then list agency first and provide explanation (if any) thereafter.

Federal

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It also highlights the need for regular audits to ensure compliance with applicable laws and regulations.

- U.S. Department of Transportation Federal Aviation Administration (FAA) approval of Form 7460 (Notice of Proposed Construction or Alteration) in consideration of Part 77 requirements)

Local

- LAWA Board of Airport Commissioners
- Los Angeles City Council [REDACTED]
- City of Los Angeles Department of Building and Safety
- City of Los Angeles Department of Transportation
- Los Angeles Department of Cultural Affairs
- Other Federal, State, or local approvals, permits, or actions as may be determined necessary.

Thanks.
Angelica

Subject: LAX North Terminals Improvement Project - 2nd Admin Draft Project Description for Review

Importance: High

Hello Everyone ...

THANK YOU all so much for the great edits and comments on the 1st administrative draft!!! We've turned around the edits and comments on the project description into a 2nd administrative draft (with figures) for your review. As the project description is the key to the NOP and Initial Study, before we give you those in 2nd draft form on March 29th we really would appreciate your review of just the project description.

Therefore, attached for your review is the 2nd administrative draft of the following:

- Project Description ... track and clean versions
- Figures 1 through 4 ... Note: We are waiting for higher resolution versions of the diagrams in Figure 3

Please provide comments by COB next Thursday, March 24th.

Subject: North Terminals - 2nd Admin Draft NOP notice and NOP-IS for Review 1 of 2 emails
Importance: High

Hello Team ...

Attached for your review (in this email) are the following documents:

- NOP-IS ... clean and track Word versions ...
- NOP-IS figures (four) ... the files have been reduced in order to send (this might affect the quality)

In 2nd email:

- NOP notice ... PDF of clean (with figures) and track Word versions
- Appendix A of the NOP-IS: Draft Historic Resources Report (this is the only appendix for the NOP-IS)

Please review and provide comments by ***COB on Tuesday, May 3rd***. THANK YOU for all your hard work on this project!!!

Hi Dorothy/Julie,

I've followed up with Lisa and we should take the SM approach on overall operation.

Thanks.

Subject: RE: Francis' comment page 35 of 2nd AD IS - number of new jobs

Hi all. Just to clarify. Francis' comment was on page 35 of the 2nd AD IS (please see attached). The comment was related to population and housing. We had indicated that "The proposed project would [REDACTED] increase long-term employment opportunities at LAX [REDACTED] within T2 and T3. These jobs are expected to be filled from the large southern California regional population and would not induce population growth in the area." We are just looking for perhaps a general estimate/range of new jobs.

Thanks

Julie

Or we take the SM approach regarding overall operation

Sent from my iPhone

On May 18, 2016, at 5:52 PM, Meyer, Dorothy <MeyerDL@cdmsmith.com> wrote:

Hi

Francis asks if we have an estimate of how many jobs (operational) that the T2/3 Mod project would create. The short answer is no. The attached is what we received from you/LAWA. As indicated on the last page :

Operations

- Estimated operational employment (e.g., number of new jobs--will new operational jobs be filled by existing employees?)
 - Information is being derived, and will be provided in the future.

The info was never provided ... We are still trying to eliminate operations ...

So do you want me to you respond to Francis that no we don't have that info or can we ask Delta or perhaps you can come up with a number????

Please advise

D

I think management is still going to have to decide what is in the delta lease. My understanding is that SM was still not ok w the number of gates delta was showing not bc of the settlement but bc it was not workable for other operational/business reasons. Can you guys check in w ELLEN today before 1?

Hello Everyone ...

I've been requested by LAWA to send you the following items for our upcoming T2/T3 Scoping Meeting (next Weds. August 24th):

- **Draft Scoping Meeting Boards** ... the attached PowerPoint represents the boards being recommended for placement around the room (there is no presentation, so this is how we will give information to the public) ... **Please review and give me comments/edits on the draft boards no later than this Friday (August 19th by Noon)**
- Draft Staffing for the Boards ... we will discuss on our weekly meeting (Monday August 22nd at 1:00 pm)
- List of questions that were asked at the LAX AAC meeting and may come up at the August 24th meeting. This internal Q&A is for the team (LAWA, CDM Smith & Delta) to prepare for anticipated questions that the attendees may have and ensure consistency with the answers provided ... We will discuss on our weekly meeting (Monday August 22nd at 1:00 pm)

For those on this email that are not normally on our weekly meeting, I will send out a meeting notice.

Regards,

Dorothy Meyer | Principal Planner | **CDM Smith**

ATTACHMENT 2

LAWA states that the 153-gate cap applies through 2020 as a provision of the 2006 Stipulated Settlement. *Id.* at 2-96. This is partly correct. The 153-gate cap is also mitigation which LAWA expressly adopted when it approved SPAS, and “dutifully incorporated . . . into each proposed SPAS study alternative.” *See ARSAC et al. v. City of Los Angeles et al.*, at 79. Because the Project would abandon an operational limitation adopted independently of the 2006 Stipulated Settlement, LAWA must analyze the impact of removing the 153-gate cap from the plans governing airport development.

LAWA also suggests that, regardless of whether the Project would cause an increase in passenger gates, the EIR considers the cumulative impact of additional passenger gates because the description of the environmental setting identifies other potential projects that would add gates. FEIR at 2-98. LAWA claims that these projects would not, in any event, cause the total number of passenger gates to exceed the 153-gate cap. *Id.* As an initial matter, the list of “Probable Future Projects” in the EIR contradicts LAWA’s claim in its response to comments that the total number of gates would not exceed 153; the Terminals 2 and 3 project and the “Concourse 0” project together would add 14 gates to LAWA’s current (2016) count of 141 gates. *See* FEIR at 2-97. Furthermore, this list of projects does not match the list of future projects LAWA provided to the City on January 4, 2017, in response to a Public Records Act request. *See Exhibit F.* This document indicates that LAX will have 173 passenger gates by 2032 as a result of several projects which are not mentioned in the EIR at all. *Id.* It also appears to show that LAX will have 158 gates in 2020, while the 2006 settlement remains in effect.

It is no secret that the 153 gates already slated for LAX can accommodate much more than 78.9 MAP. Moreover, LAWA intends to dramatically increase the number of passenger gates at LAX during, and beyond, construction of the Project. This will allow LAX to accommodate even more passengers and flights. Nothing in the EIR (including its cumulative impacts analysis) evaluates the noise, air quality and other impacts of that growth on El Segundo and other airport neighbors.

The City reiterates the request in its comments on the DEIR that the entire administrative record for the Terminals 2 and 3 project, including the recently released EIR (attached as Exhibit G), be included in the LAMP administrative record. Furthermore, pursuant to the California Public Records Act (“PRA”), Government Code Sections 6250 et seq., and the amendments to the California Constitution provided by Proposition 59, please make available for El Segundo’s review all background documents supporting or explaining the data in Exhibit F, and include all such documents in the administrative record for the LAMP. Please respond to this request within ten (10) days. Gov’t Code § 6256.
